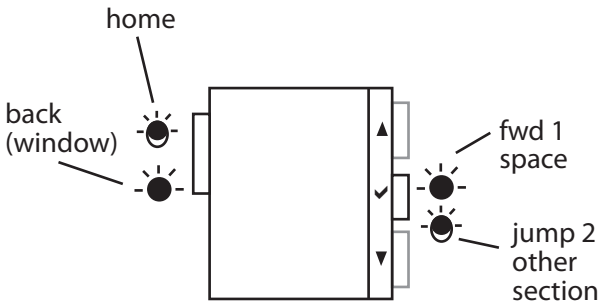
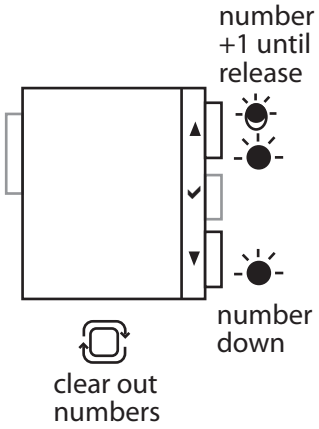
Global gestures

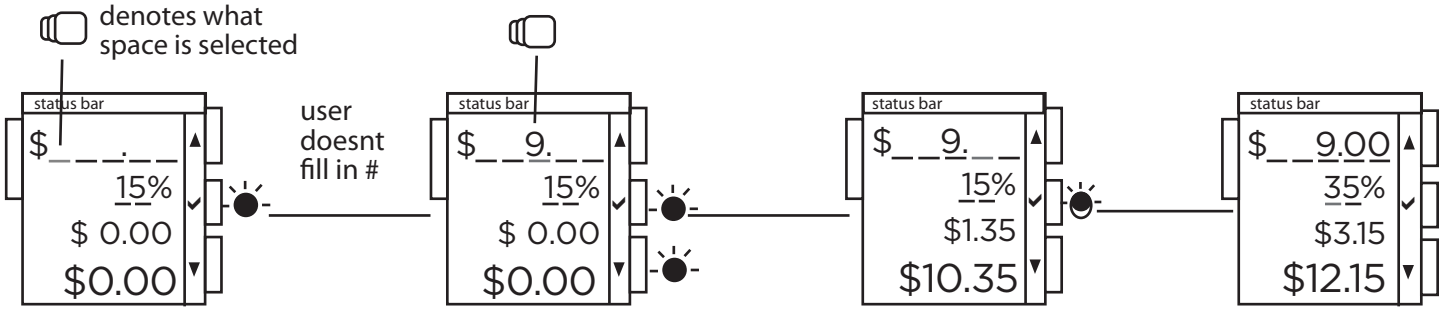




$ Numbers = 0-9

% Numbers = whole 1% +

Flow



% is autopopulated with default

press of ✔ moves user through spaces $ first then %

user can press ✔ and not select a number - the blank = 0

as the user changes the numbers on each ✔ press the total should calculate.

ex: if it is currently at 15% and the user changes the 1 to a 3 and presses ✔, the total $ would change.
